

# Fine Arts Work Center

## **Summer Workshops 2022**

### **Owning Your Truth: More Experiments in Text and Image for Writers and Photographers**

**Joanne Dugan**

**July 17 - 22**

#### **MATERIALS LIST**

- Camera - Any type/level of digital camera is welcome but please bring one you are familiar with. You may also work with an iPhone or Android device but please be sure you have the ability to easily download and share images from the device. We will do a technical review on the first day of class to answer any questions you have.
- A means to transfer images for assignment review (2-4GB flashdrive)
- Your equipment of choice for writing (laptop or journal)
- Three examples of image/word combinations that are appealing to you - the work can be yours or someone else's, including journal entries, children's books, art books, etc. You are welcome to use printouts, downloaded digital images (which we can project; please arrive with them on a USB drive) or any other quick way to show the work. Don't think too much about it; just share something that you like and can talk about.
